| Product: | VigorOx® 15 F&V |
| Active Ingredient: | 15% Peroxyacetic Acid and 10% Hydrogen Peroxide |
| Manufacturer: | PeroxyChem, LLC (www.peroxychem.com) |
| Registered use pattern and rates: <i>Label current as of August 2017</i> | <p>For use on fruits and vegetables. Approved for use on food contact surfaces. Product is labeled for sanitizing surfaces and for use as a dip or spray. Used for sanitizing surfaces/equipment as a sanitizer against microorganisms such as <i>Staphylococcus aureus</i>, <i>Escherichia coli</i>, <i>Salmonella typhimurium</i>, and <i>Listeria monocytogene</i>, depending on the application. See the label for directions pertaining to specific applications. Use as a dip or spray wash to control the growth of non-public health microorganisms that may cause decay and/or spoilage. For treatment of raw, unprocessed fruit and vegetable surfaces, dilute 1 fluid oz per 16 gallons of potable water, yielding 85 ppm peroxyacetic acid and 57 ppm hydrogen peroxide. Spray the solution on produce or soak produce in the solution. Allow a contact time of at least 45 seconds. Can drain treated produce without a potable water rinse.</p> |
| Material Safety issues: <i>SDS dated July 18, 2017</i> | <p>Precautions for handling, use, and storage of VigorOx® 15 F&V are provided on the SDS sheets.</p> <p>Wear the required personal protective equipment described on the label when using this product.</p> |
| Comments: | <p>For use on fruits and vegetables. OMRI listed. This product may be used in certified organic production or food processing and handling.</p> <p>See www.peroxychem.com for additional information.</p> |
